“ James and Scott, your dad was a great guy. I worked with him, your uncle Bud, and my dad for about 2 years after I graduated and believe me it was never a dull moment. He was always laughing and there was some kind of razing going on all the time, but I learned a lot from them. I have your dad to thank for my career with AT&T. I had always planned to be a carpenter but Buck convinced me to take the job with a log term career. I last saw Buck about 6 years ago but he was the same old Buck. We sat and had a good long visit about when we worked together. I have many fond memories of those days and he will be missed.

I just found out that I had missed his service today and I am so sorry, but your family is in our thoughts and prayers.
