“ Oh, Brad. He was always so inclusive, hilarious, and authentic. Some of my fondest undergrad memories were of chasing armadillos in the woods with him and the gang (for research). I remember how proud I was to see him present his thesis - as an undergrad, it was my first real "research" project, and seeing him present it all and make sense of it all inspired me to want to do my own research (which, eventually, I did!). We stayed lightly in touch all the years since on social media. I'm shocked and heartbroken to hear that he's gone. He will be missed.

“ It was my good fortune to have worked with Brad as his manager at SCA Pharma from August 2017 till my retirement in September 2018. He had my full confidence in his work, his thoroughness, and his demeanor. A pleasure to work with, I could count on him - and did - in many ways relating to his work. Needless to say, I am stunned and heartbroken over this news and wish to extend my sincerest sympathies to his family and loved ones. Rest in peace, Brad. You were one of the good guys.
